About

TenK Solutions is a **Systems Integration** Consultancy which provides far more than just **technical expertise** – we become **trusted advisors** dedicated to our clients' success.

Led by Kiel Byrne, who brings a unique perspective shaped by over 15 years in the AEC industry **integrating**, **engineering**, and **optimizing** IT systems. This experience allows our team to *speak the language* of professional services firms and *understand their needs* at a deeper level.

Core Competencies

- Tailored IT solutions based on a consultative approach
- Preferred partnerships with 200+ technology suppliers
- Network design, implementation and administration
- Software and web development
- Technology training and documentation

Differentiators

- Hands-on account management
- Architecting customized technology strategies
- Advocate for customer **data safety, collaboration efficiency,** and **expense management**
- Proactive recommendations for maximizing investments
- Ensuring IT aligns to core business goals
- Extensive engineering experience from **building systems, information technology,** & **software**
